Subject: PRO192
LAB 03

Project name: MASV_Lab03

MASV: là mã số của sinh viên

Nén tất cả bài làm lại với tên: submit.zip

Sau đó submit bài làm (submit.zip) vào mục **Slot05/ASSIGNMENT/Lab03** trên trang Edunext

Yêu cầu:

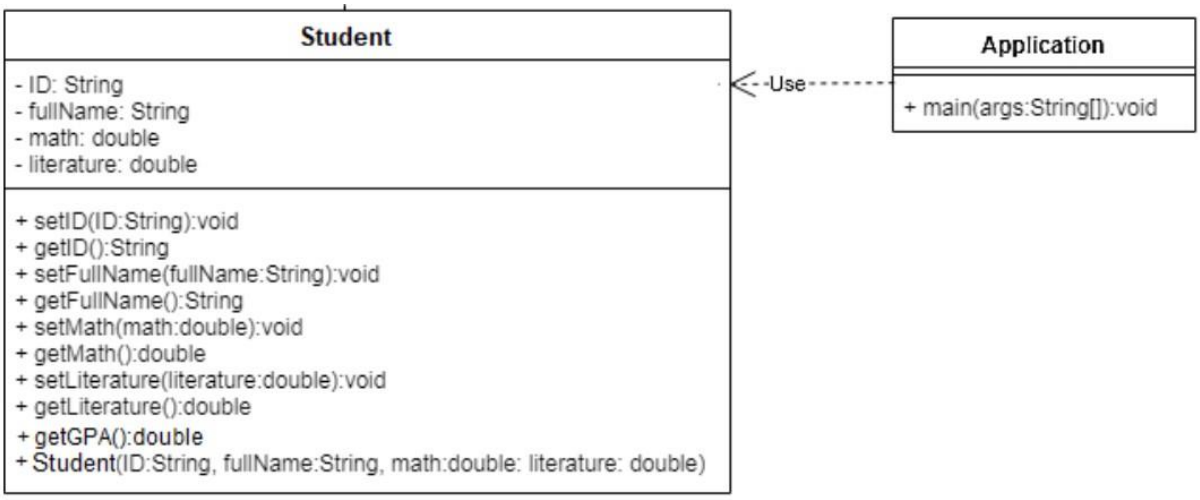

- Comment phương thức và giải thuật đầy đủ
- Format code
- Thông tin phần author (Họ tên – MASV)

Deadline: 22/09/2024, 23:59

Technical Requirements:

1. Using Object-Oriented programming style.
2. Using ArrayList to store data

Create 2 classes as below:

Write a student management program with the following functions:

Create menu for this program as below:

```
----- STUDENT MANAGEMENT V1.0 -----

1. Adds new student.
2. Shows all students.
3. Quit.
Please select a function:
```

Function 1. When user selected the first function, the application will receive student information and append this student into a list.

Student information is entered as a string in the following format:

ID@Name@MathScore@LiteratureScore

```
example:

----STUDENT MANAGEMENT V1.0 [ADD NEW STUDENT]----

Please enter Student Infomation: 00001@Nguyen Thi Tu Anh@8@7

-->Student created and added to list of student successful!
```

Note: The input string cannot be empty. If empty, re-enter

```
----STUDENT MANAGEMENT V1.0 [ADD NEW STUDENT]----

Please enter Student Infomation:

-->You must enter data!

----STUDENT MANAGEMENT V1.0 [ADD NEW STUDENT]----

Please enter Student Infomation: 00001@Nguyen Thi Tu Anh@8@7

-->Student created and added to list of student successful!
```

Function 2. When user selected the second function, the list of student will be shown:

```
----- STUDENT MANAGEMENT V1.0 [List of student] -----
| No. | ID    | Student name       | Math | Lit | GPA |
+-----+-------+--------------------+------+-----+-----+
|  1  | 00001 | Nguyen Thi Tu Anh  | 8.0  | 7.0 | 7.5 |
+-----+-------+--------------------+------+-----+-----+
|  2  | 00002 | Pham Van Cuong     | 2.0  | 5.0 | 3.5 |
+-----+-------+--------------------+------+-----+-----+
|  3  | 00003 | Tranh Van Hung     | 8.0  | 5.0 | 6.5 |
+-----+-------+--------------------+------+-----+-----+
|  4  | 00004 | Huynh Thanh Tu     | 6.0  | 8.0 | 7.0 |
+-----+-------+--------------------+------+-----+-----+
|  5  | 00005 | Dang Van Lam       | 8.5  | 6.5 | 7.5 |
+-----+-------+--------------------+------+-----+-----+
The best student of this class is/are:
1. Nguyen Thi Tu Anh (GPA: 7.5)
2. Dang Van Lam (GPA: 7.5)
```

Function 3. When user selected the last function, the application will be stopped and shown some message as below:

THANK FOR USING OUR APPLICATION!

SEE YOU AGAIN!

Function 4. When user selected invalid function, the application will be shown the warning message "The function of application must be from 1 to 3!"
